Five Easy Steps for the correct filling of your Sheaffer Snorkel pen

1 Unscrew plunger knob, using gentle forward pressure on knob while turning. UNSCREW UNTIL DEFINITE "CLICK" IS FELT. SNORKEL tube is now fully extended.

2 Hold SNORKEL tube over writing fluid bottle. Pull plunger knob out as far as it will go.

3 Immerse only SNORKEL tube in writing fluid. IT IS NOT NECESSARY TO IMMERSE THE PEN POINT.

When filling new pen—FIRST TIME ONLY—tip of pen point should be moistened in ink.

4 Push plunger knob rapidly all the way down JUST ONCE. Leave SNORKEL tube immersed a few seconds while the SNORKEL "breathes in" the fluid.

5 Screw plunger knob back on barrel and watch SNORKEL tube retract, with all other pens you would now be looking for something to wipe off point WITH THIS SHEAFFER SNORKEL THERE IS NOTHING MORE TO DO YOUR PEN IS READY TO WRITE.
